## Speed up your body's natural healing process

INDIBA® Activ Therapy thanks to the **Proionic® System** helps activate cell metabolism restoring its natural balance, increasing vascularisation and the internal temperature of the treated tissues.

The result is a faster **acceleration of the natural healing processes** of the human body, **reducing** the patient's **pain from the first session**.

INDIBA® Activ Therapy restores function and mobility, normalises muscle tone and increases elasticity. At the same time, the draining effect by INDIBA® Activ Therapy helps **reduce inflammation**.

With **INDIBA® Activ Therapy** you will have the **solution to your problems** in a way that is

patients  
come  
first

- **Effective**
- **Safe**
- **Pleasant**
- **Non invasive**
- **Fast**
- **Harmless**

**You can  
receive treatments  
on a frequent basis**

even in the presence of metallic implants or prostheses.

More than 30 years of experience has turned **INDIBA®** into the treatment of choice worldwide. That is why **INDIBA®** estimates that over 120,000 patients are treated daily with our technology.

The  
difference  
is  
**Indiba®**

## Endorsed therapy

Elite sports people trust **INDIBA® Activ Therapy** to prevent and treat their muscle and tendon injuries.

Experience in elite sport has taught us to incorporate manual therapy simultaneously, thereby obtaining greater and improved clinical outcomes.
